Kathmandu Valley Monsoon Monitoring 2020

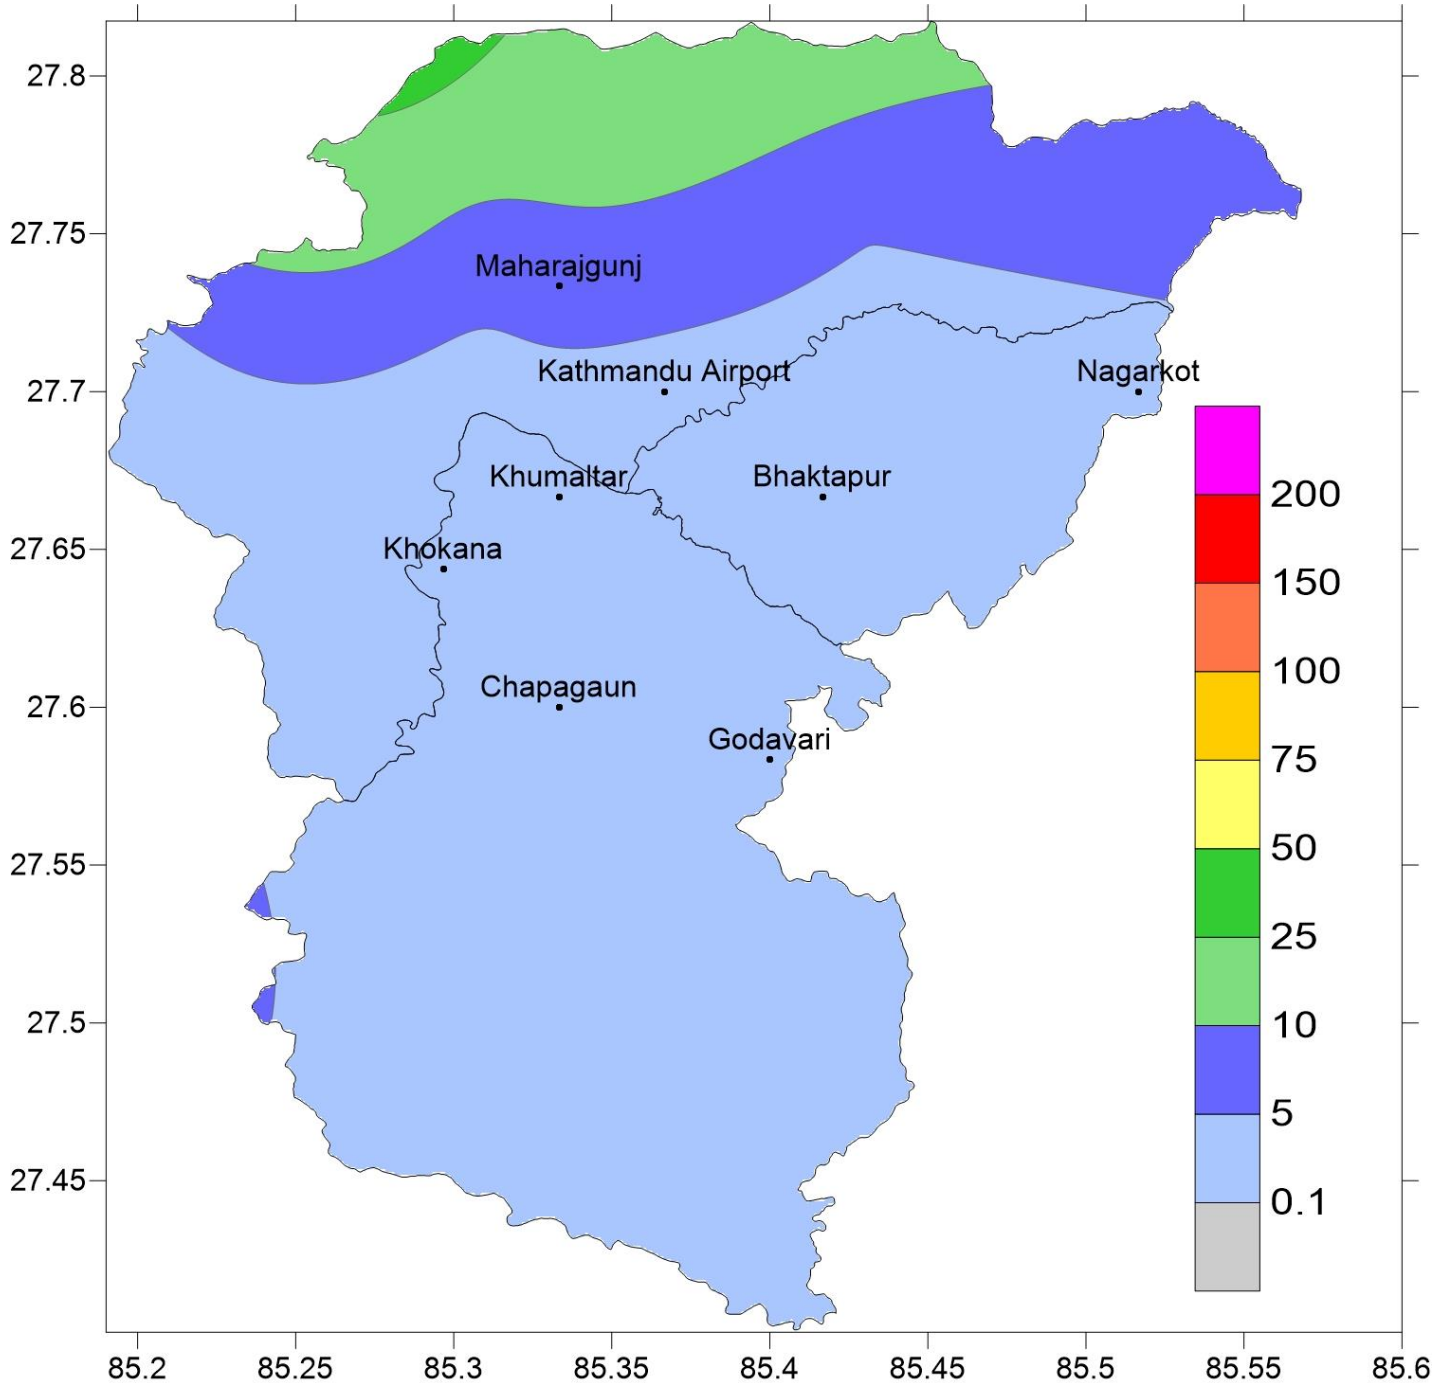

Fig. 1 : Rainfall over various stations in the Kathmandu Valley in mm. (21st August 2020)

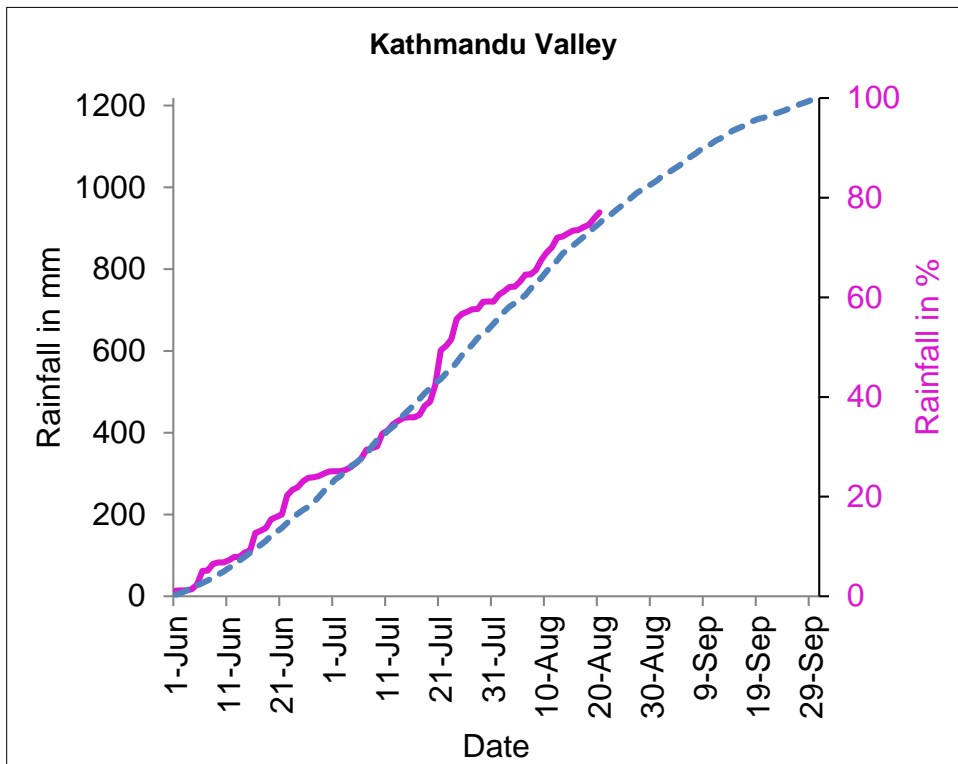

Fig. 2 : In the above graph, blue dashed (---) line indicates the average of daily accumulated normal precipitation of 8 stations during monsoon season (June-September) and pink solid line (—) indicates the average of daily accumulated precipitation of this monsoon. The 8 stations are shown in the fig.1 above.

Fig. 3: Anomaly of observed daily averaged rain of 8 stations with daily average of normal of the 8 stations shown in fig. 1 above.
